

# meet the TEACHER

## *Educational Experience*

I graduated from UW Milwaukee with a Bachelor's in Psychology. I also started my Masters in clinical and mental health counseling, which I'm currently taking a break from and hoping to start back up this fall! I've also taken my Fundamentals of Infant and Toddler Care. Before I started at OCC, I did one summer of summer school and was a nanny for several years!!

## *About Me*

Hello all! My name is Kalli and this is my first year at OCC! I decided to venture into childcare after having my son! My favorite thing about OCC so far has been not only getting to help teach your kiddos, but learning from them as well. They remind us that it's okay to move through the world with curiosity and kindness, even if that does sometimes result in big feelings. I love watching them grow into their personalities and learn from the environment around them. Every day is something new!

## *First Day at OCC*

*December 29, 2025*
