TEACHER

About Me

I have worked in childcare for the last 30 years. I discovered at a pretty young age that I loved working with children and dove into the childcare field. I have worked with all age groups but discovered I have a true passion for working with infants. I truly love my job and what I do. I have been at OCC now for 5 years and have been the lead Infant teacher for the past 3 years. I love caring for the infants and getting to know their parents. I take pride in my job every day.

Educational Experience

The classes covered include ECI and EC2, along with Infant/Toddler care. Additional important topics include Shaken Baby prevention and Sudden Infant Death Syndrome (SIDS), all of which focus on promoting the health, safety, and development of young children.

First Day at OCC

September 21, 2021
