

Dear Parents,

Thank you for choosing Ozaukee Child Care and Preschool and for being an important part of the OCC family. We know that entrusting someone with your child is one of the most important decisions a family will make, and we are grateful to be part of your child's early learning journey.

As a nonprofit organization, every dollar we receive through tuition, donations, grants, and fundraising is reinvested directly into our centers. Since opening our doors in 1975, our mission has been to provide exceptional early childhood education while striving to keep tuition affordable and offering competitive wages and benefits for the dedicated educators who make our mission possible.

Enclosed is our Fall 2026 Tuition Schedule, with new rates effective September 7, 2026.

Over the past year, we have worked diligently to manage costs and advocate for increased support for early childhood education. Wisconsin's Child Care Counts (CCC) program helped offset rising expenses and minimize tuition increases, but that funding ended on June 30, 2026, removing a significant source of support for child care providers across the state.

Our teachers are the heart of OCC, and investing in them is our highest priority. Competitive wages, meaningful benefits, and professional growth opportunities help us attract and retain exceptional educators. These investments ensure the consistency, care, and high-quality learning experiences your children deserve.

Our continued investment in our Mequon Center and expansion in Grafton are part of a long-term strategy to strengthen OCC's future. Serving more families creates a stronger financial foundation that supports our teachers, sustains program quality, and helps reduce the need for larger tuition increases over time.

If your family has had a positive experience at OCC, we hope you'll share it with friends, neighbors, coworkers, or family members who may be looking for high-quality child care. Every new family strengthens our community and helps support the teachers and programs that make OCC special.

We recognize that any tuition increase affects family budgets, and this decision was not made lightly. This adjustment will help us continue providing exceptional care and education while responsibly investing in our teachers, our programs, and the long-term sustainability of OCC.

Thank you for your trust and partnership. We are honored to be part of your child's early learning journey and look forward to continuing to serve your family.

Sincerely,

Ozaukee Child Care and Preschool Board of Directors and Management Team
